# ROSHNY JOHNSON

Nedumkunnam, Kottayam, Kerala +91 89211 32077
roshnyjn05@gmail.com linkedin.com/in/roshny-johnson github.com/roshnyjohnson

## Profile

Final-year Computer Science Engineering student (CGPA: 9.23) with strong foundations in Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, and Computer Networks. Hands-on experience in developing, testing, debugging, and deploying software applications using Python, JavaScript, SQL, and database technologies.

## Education

**Rajiv Gandhi Institute of Technology, Kottayam** Sept 2023 - Present
B.Tech in Computer Science and Engineering (Honours in Machine Learning) **CGPA: 9.23**

**St. John the Baptist's HSS, Nedumkunnam** Jun 2021 - Mar 2023
Higher Secondary **99.6%**

**St. John the Baptist's English School, Nedumkunnam** Mar 2021
Class X **95.8%**

## Experience

**Business Analyst Intern, IMA360, Texas, USA** Aug 2026 - Present

- Worked with SQL for data analysis and report development, including querying relational data and validating business data across application modules.
- Prepared and executed functional test cases, performed UAT, identified and documented defects, and validated fixes for enterprise software workflows.

**Intern, Superchat AI, Hyderabad** Jun 2026 -- Jul 2026

- Developed responsive UI components for HRMS and Sales Intelligence applications using HTML, CSS, and JavaScript.
- Contributed to debugging, testing, feature enhancements, and Git-based development workflows.

## Projects

**AI-Powered Smart Expense Tracker** MongoDB, Express, React, Node.js
github.com/roshnyjohnson/EXPENSE-TRACKER-WITH-AI-CATEGORIZATION

- Developed a full-stack AI-powered expense tracker to help users record, manage, and organize their daily expenses.
- Integrated an LLM API for automatic expense categorization and implemented secure login, expense management, and database storage using the MERN stack.

**Email Spam Detection System** Python, Scikit-Learn, FastAPI, React
github.com/roshnyjohnson/spam-detector

- Built an NLP-based spam classifier using TF-IDF and Logistic Regression, achieving **97.3% test accuracy**.
- Developed FastAPI REST APIs with a React frontend and tested, debugged, and deployed the application using Git/GitHub, Vercel, and Render.

## Positions of Responsibility

**Technical Coordinator, IEEE RAS Kerala Chapter SLT** Jan 2026 -- Present
Coordinated technical planning and execution for a 500+ participant state-level conclave.

**Chairperson, IEEE IAS SBC RIT** Jan 2026 -- Present
Led chapter operations and organized a 400+ participant ideathon involving 20+ colleges.

**Promotion Head, ISTE SC RIT** Jan 2025 -- Dec 2025
Planned outreach campaigns that increased engagement and memberships by 40%.

## Technical Skills

**Programming Languages:** Python, C, JavaScript, SQL
**Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
**Frontend :** HTML, CSS, React.js
**Backend :** Node.js, Express.js
**Databases:** MongoDB, PostgreSQL
**Tools:** Git, GitHub, Postman

## Achievements & Certifications

**Reliance Foundation Undergraduate Scholarship:** Awarded for academic excellence (2023--Present).
**Muthoot M. George Scholarship:** Recipient of merit-based scholarship (2023--Present).
**aBAJA SAE India:** Participated in the National-level autonomous vehicle design competition in Chennai.
**Infosys Springboard Certification:** Certified in Database Management Systems.
**NPTEL Certification:** Certified in Discrete Time Signal Processing.
